Assets Of the Group's total assets at 31 December 1992, 15,621 million Swiss francs, or 51 per cent, are long term assets and 14,979 million Swiss francs current assets. The proportion of long term assets decreased by 1 percentage point in 1992 after having increased continuously since 1987.

Liquid funds The greater part of the 5,267 million Swiss francs in liquid funds is held by the Parent company. 2,055 million Swiss francs, or 39 per cent, are invested in marketable securities.

Liabilities Total liabilities increased by 409 million Swiss francs to 12,526 million Swiss francs. This figure includes 5,340 million Swiss francs in interest-bearing debt (principally bank debt, debenture loans, private placements and employee savings deposits), making up 43 per cent of total liabilities; 3,181 million Swiss francs of this are short term, including the commercial paper issued in the USA, the United Kingdom, and the Euromarket, plus 95 million Swiss francs in money market debt in Switzerland. Apart from these 95 million Swiss francs, all bank debt was incurred by Group companies in their local currencies. The debenture loans and private placements were denominated in the following currencies: US dollars, 75 per cent; Swiss francs, 21 per cent; pounds sterling, 4 per cent.

Equity Equity represents 59 per cent of the Balance Sheet total (1991: 57 per cent).

Key ratios The principal ratios have changed as follows during the year:

Debt/equity ratio (liabilities and equity respectively, as percentages of the balance sheet total): 41:59 (1991: 43:57).

Assets protection ratio (ratio of equity to long term assets plus one half of inventories): 1.02 (1991, 0.97). The entire long term assets plus 59 per cent of inventories are covered by equity.

Current ratio (ratio of current assets to current liabilities): 1.98 (1991, 1.79).

Quick ratio (ratio of liquid funds plus receivables to total current liabilities): 1.24 (1991, 1.05).
